The impacted neighbor statement page is **required** for all improvements regardless of whether the improvements will directly impact the neighbors or not. This page is intended to make your neighbors aware of your proposed improvements so that they can anticipate the improvements, excess noises, excess visitors to the property, construction, etc. A neighbor's approval/disapproval will be taken into consideration but it is not a direct indication of whether your improvements will be approved or not. Specific objections must be noted or provided separately for the Architectural Review Committee/Board of Directors consideration if a neighbor is recommending disapproval.
